

The perfectly discreet size **synthetic urine kit**. The Ultra Pure 57 mL (2 fl oz) kit has been created in a laboratory environment and made to pass any test. This Ultra Pure synthetic urine is made for both adult males and females and comes complete with heat pad, silent squeeze bottle and rubber band. Ultra Klean is so confident in all their products, they offer a 500% manufacturers money back guarantee! Use the products and get the best results time after time. When inspected this synthetic urine shows all-natural human like traits in every sample. Anyone can use this fake urine kit by simply following the directions on the box and listed below.

Follow instructions closely to ensure accuracy and passing results. This fake urine product has a three-year shelf life and there is no freezing or thawing required.

#### **How to use synthetic urine:**

##### Step 1.

Shake contents of bottle before placing the synthetic urine in the microwave, heat for 10 seconds. If you do not have microwave access keep the heating pad attached for 45-60 minutes to reach the optimal temperature of 28-32°C.

##### Step 2.

Shake the provided heating pad and attach to your bottle of fake urine with supplied rubber band.

##### Step 3.

Place the synthetic urine with the heating pad wherever you plan on storing it. The temperature strip located on the front should read between 28-32°C to replicate body temperature.

##### Step 4.

Your Ultra Pure synthetic urine kit is now ready for use!
